To whom it may concern:

I am now writing this letter of recommendation as the proud owner of the largest privately owned solar installation in Northern California. The system is performing according to planned specifications and we are well on our way to earning our conservative long term investment objectives. In addition, the intrinsic value of knowing that our system plays an integral role in the advancement of clean energy initiatives and the overall health of the environment is tremendous to Tony's Fine Foods owners, employees, customers and vendors.

With this backdrop, I must commend Mr. Kevin Davies and the management and staff of Solar Development, Inc. The experience and expertise of Mr. Davies and his team created a sense of calm throughout all phases of the project. Mr. Davies and Solar Development are extremely conscientious and reliable. Every phase of the project was professionally managed and implemented by any measure. It is evident to all at Tony's Fine Foods that Solar Development, Inc. is deeply committed to quality of character, quality of service, and quality of product. I wholeheartedly would recommend them to anyone considering the installation of a system such as ours.

Very best regards,

A handwritten signature in black ink that reads "Scott A. Berger".
